About the Business

Have you visited New York and not known where all the places that you wanted to sightsee were? Or which restaurant in China town serves the best Vegetarian cuisine?

NYC MadeForYou customizes your trip to NYC to provide you with a truly unique experience. We understand that there is not always time to plan or research the places you want to visit and it can be disappointing to rely on a travel agent who may or may not be familiar with the city.

How do you know which restaurant serves the best pasta or the best hamburgers? How do you know where to shop for the ultimate shopping experience? What's the best hotel for your money? Where can you take the kids on a rainy NYC day? So much to do, and so little time to see it all in, that is why New York is constantly referred to as the "city that never sleeps."

That's why NYCMadeForYou is all about easing the burden of those meticulous, but necessary details to fully enjoy your visit.

So let us plan the trip, and you have all the fun!

Testimonials

What an EXCELLENT job! I was really impressed with your attention to detail. You provided a number of choices in terms of lunch and dinner suggestions. Overall, your presentation was very detailed and provided a wealth of information. I liked your personal comments on the places you experienced yourself.

I would definitely recommend your services. I know that I couldn't have done this myself. I can tell that you did a ton of research!

I can't begin to tell you what a lifesaver you've been. I was in a pinch for what to do for 6 women coming to visit me from Tampa - all Diva's with the utmost taste in everything! You did a fabulous job of finding great boutiques, great food and great night-life for 7 women! You are to be commended.
